

**TREMONT**  
FIRST NATIONAL BANK  
TREMONT • HOPEDALE • NEW HOLLAND

You have to  
experience it!

## Cybersecurity Tip of the Week- 7/9/2020

### **IS THAT EMAIL REALLY COMING FROM US?**

*The fraudsters are very aware that all of us have many things to distract us and focus on right now. Everyday there is a constant flow of information about school openings, sports activities, virus spikes, politics and the economy. What a great time to get you to click on an email that, at first glance, you think comes from one of your most trusted partners...your bank. **But...is that email really coming from your bank?***

- ***Always hover over the full email address BEFORE clicking to open any email you were not expecting.***
- ***In our case, if it does not say “tremontbank.com” at the end, it did not come from us and a fraudster is trying to catch you off guard!***

*For example, the email may come from “tremontbank.co” or “tremontbk.co”. The fraudsters are counting on you thinking you see “tremontbank.com” when you look quickly, rather than what it really says, and assuming the email is safe to open.*

*Stay safe - even when opening your email!*

**THINK BEFORE YOU CLICK**
